

THE MIGHTY OAK  
By Deborah Savran & Robbie Boyd

C  
Winds whip around the branches  
F  
of the tallest trees  
C  
Trying to take me down  
G  
But I'm still on my feet  
  
C  
Saw that storm a'coming  
F  
didn't run or hide  
C  
met it face to face  
G  
Came out the other side  
  
F  
Oh I've learned my lessons now  
C  
It's time to start again  
F  
I'll keep on letting go  
G  
and singing through the rain  
  
C  
whatever storms may come  
F  
I am strong enough  
C G  
to meet them with the love in my heart  
C  
Just like the mighty oak  
F  
In the winds that blow  
C G  
Standing solid on its path  
F C  
We too can be this way  
G C  
we too can be this way  
  
Darkness has subsided,  
I see the light  
step out from the shadows  
to claim back my light

I'm here at the beginning  
where there is no end  
Blessed by these cycles  
here I go again

Cause I keep on coming back  
Like Winter turns to Spring  
No need to seek outside myself  
We're already everything

whatever storms may come  
I am strong enough  
to meet them with the love in my heart  
Like the mighty oak  
In the winds that blow  
Standing solid on its path

We too can be this way  
we too can be this way

F C  
Like the stillness in your eyes  
G C  
Where your true power lies  
F C  
Oh it just can't be denied  
G C  
Feel the Universe inside  
Feel the Universe inside

whatever storms may come  
you are strong enough  
to meet them with the love in your heart

Just like the mighty oak  
In the winds that blow  
Standing solid on its path

whatever storms may come  
you are strong enough  
to meet them with the love in your heart

Just like the mighty oak  
In the winds that blow  
Standing solid on its path

We too can be this way (X4)
