Gemini

By Deborah Savran

Amin
Delicacy, you hold that gem
Go deeper now my friend.
Nurturing is your pure essence
Go deeper now my friend

Dmin Amin
Sister, as we gaze up at the stars at night
Dmin Amin
Remembering what we came here for
Dmin
Amin
And in the daylight with one look in your eyes
G Amin
I need nothing more

Your fingertips like petals of rose
Go deeper now my friend
When we meet a fiery wind blows
Go deeper now my friend

G Amin
Higher than the mountains rise
Dmin Amin
Go deeper - as one we are so wise
G Amin
Much further than the ocean's floor
Dmin E
Go deeper now, open the door

The jewel of truth when spoken from your lips
A gift that none can ever stain
The fragrance of you like a lilac in bloom
And petricore from Spring rains

Delicacy, you hold that gem
Go deeper now my friend
Nurturing is your pure essence
Go deeper now my friend

G Amin
Higher than the mountains rise
Dmin Amin
Go deeper - as one we are so wise
G Amin
Much further than the ocean's floor
Dmin E
Go deeper now, open the door

Higher than the mountains rise
Go deeper - as one we are so wise
Much further than the ocean's floor
Go deeper now, open the door

Delicacy, you hold that gem
Go deeper now my friend.
Nurturing is your pure essence
Go deeper now my friend
