

ST GERMAIN
By Deborah Savran

C Emin7
Yeah you know when it seems hard
Amin F
That I'm with you all the way
C Emin7
Remember you're an angel of presence
Amin F
Reflecting your rays

C
You're never alone
Emin7
you're never alone
Amin G
Just call out my name -
C
St Germain
St Germain

As I walked by your side
Skies turned violet tonight
So we stopped and stood in awe
'Cause everything's far more than just alright

You're never alone
you're never alone
Just call out my name -
St Germain
St Germain

As I'm writing this song
Out my window lands a blue Stellars Jay
He digs singing along
His feathers in the wind with the music sway

We're never alone
We're never alone
We call out your name -
St Germain
St Germain

2 bar Instrumental break

(Bridge)

F - Am - Em - G
Like the magic at Giza
And the music of the spheres
When I sing out this sweet sound
All illusion disappears

Yeah you know when it seems hard
That I'm with you all the way
Oh, angel of presence
Reflecting your rays

You're never alone
you're never alone
Just call out my name - Saint Germain, Saint
Germain
F - Am - Em - F - G
Never alone.
