

Bearers of Truth
By Deborah Savran

G. C D

I got this, babe

Out with the old in with the new

What held me in chains lost its grip today

G C C D

Loud and clear your message came through

No more joy crushin'

The devil sittin' on my shoulder used to hide

But now I keep him in plain sight

And he can't fool me with his lies

So many lies

Am7

But I know

D

A trust absolute

I trust the word deep within me

And I trust you

G

Yeah I trust you

Am7 D

That heart in you

Yeah I trust you

The heart in you.

Far and wide, overt and subtle lies

in what I hear and read

Corruption abounds in what should be

Sacred ground

Fueled by self-righteousness and greed

So much greed

Where are the truth bearers?

Who persist through the witch-hunts

The courage it takes to stand up in evil's face

I stand with that kind of love

Fearless love

Am7

And there's a growing band

D

out on the streets

Am7

And they've got this

D

They're rockin' the beat

Walking truth with everybody they meet

Cutting through doubt

and bringing real care

And I'm with them

Haters beware

Oh I know

A trust absolute

I trust the word deep within me

And I trust you

Yeah I trust you

That heart in you

Yeah I trust you

The heart in you.

'Cause we've got this, babe,

Out with the old in with the new.

What held us in chains lost its grip today

Cause, loud and clear our message came through
