

Don't Wait For the World to Change
By Deborah Savran

C Dmin F Amin
Don't wait for the world to change,
Or a savior to come
You've got true power in your veins
Cause we all are the ones.

F Amin
There's somethin' stirrin' in America
E Amin
A Real and earthy outrage
coming out
of a stranglehold of lies
E
You are the awaited sage

So don't wait for the world to change,
Or a savior to come
You've got true power in your veins
Cause we all are the ones

F Amin
Ain't no masks or separation
E Amin
That's gonna stop this alchemy
F
Orwellian state
Amin
Will never make us great
E
Are you ready to be free?

C Dmin F Amin
Then don't wait for the world to change,
Or a savior to come
You've got true power in your veins
Cause we all are the ones.

F Amin
Silence keeps the waters stagnant
E Amin
A true movement makes waves
Rock the boat
By opening up your throat
E
To sing a mighty note

F
Not by shaming
E
Not with fear
No reaction - no judgment my dear,
Just get super clear
The rhythm of the Cosmos
Is how your boat can steer.

C Dmin
Don't wait for the world to change,
F Amin
Or a savior to come
You've got true power in your veins
Cause we all are the ones.
F Amin
Oh ho just be it
E
We all are the ones
F Amin
Hoh yo just feel it
F Amin
We all are the ones

C Dmin
Don't wait for the world to change,
F Amin
Or a savior to come
You've got true power in your veins
Cause we all are the ones.

You've got true power in your veins
Cause we all are the ones.
