

Stay in Tune
By Deborah Savran

Intro Am - C - Am - C - E

C - Am - C - Am - C - Am - G

I'm a musical instrument.
Playing in the holy key.
God's the musician.
Am I willing to sing the song that comes
through me?

Every move I make is music.
Arpeggios across the room
Every breath I take, a concert
I just gotta stay in tune.

Chorus
F - Am - E - Am

And up and down my spine
Alchemy plays these strings
And as the sun lights up the moon

I stay in tune
YEAH, I Stay in Tune.

Throw out the rule book
The game has changed
New instructions: be humble
That's the melody to get unchained

Instant awakening
Happening across the land
Cells becoming musical notes
Now that's one amazing band

Chorus
F - Am - E
And up and down my spine
It's alchemy that plays these strings

And as the sun lights up the moon
I stay in tune
Yeah, I Stay in Tune

In tune with the stars in the sky
In tune with the one heart
Don't even need to try
